Subject: [External] Proposed addition to 150 Wickham Road

You don't often get email from chazlyanavich@gmail.com. Learn why this is important

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

The proposed work will include putting in a concrete foundation and attaching an 8 by 20 bathroom\laundry room to the existing 1990 addition to the original 1740's home. The bathroom will be at the rear of the house unseen from the road. The windows will match the existing bathroom windows. The siding will match the current clapboard siding. The roof will be asphalt agricultural shingles which were used when the 1990's addition was put on. Since then wood shingles were added. The only changes to the original house will be to remove a window and replace it with a door. This will not be seen from the exterior of the house.
The plans are with the building dept.
