4. Discussion
   a. Clean Water Ops Report and Bills –

      The members reviewed their email addresses on the contact list, and Mr. Ventres will work to get the incorrect ones fixed.

      Mr. Abramczyk noted that there was a transducer issue on SBR2 that several actions have been taken to resolve it. There are parts coming this week to install a new part to address the clog. The valve works great and it's taken a bit longer to get the transducer but it works now. The test will be conducted on SBR2 on Indigenous People's Day. The test will be conducted every 6 months to ensure no issues.

      He will bring a lawn mower down to mow the lawn and trim the area as well; he has cleaned up near the propane tanks and remove the old mower. Mr. Ventres has asked Public Works to trim the area in the back as well.

      There were 2 DMRs submitted but both have been addressed. There are 3 rebuilt grinder pumps and 2 new ones available if issues occur. These will be used next if there is another issue. He will pay attention to the use of these to ensure that as the inventory gets low, more will be purchased.

      Mr. Abramczyk notified FR Mahoney that he wants to be engaged when there are issues, and has asked them to provide him with a spreadsheet of the equipment. He wants to watch the equipment repairs to ensure oversight on equipment repair. The FR Mahoney report contains pictures. One issue related to the reinstall (hit by a snowplow) at 2 Norwich may require additional work to ensure it is not hit by a snowplow again.

      He noted the plant is working well and it has been a very good summer.

5. Adjournment

No motion for adjournment since there was no quorum.

Respectfully submitted,
Shannon A. Goyette
