

After reviewing each 5G wireless companies' proposal's the Assistant Town Manager, Building Inspector, and Town Manager initially ranked the following wireless companies separately. Then the three met twice to discuss the rankings and why. Based on those meetings we had additional questions and went back to the companies for answers/explanations. Once received the companies answers we discuss the ranking a final time which is below.

-JMT

-VCOMM

-CTCNET

Cityscape

The ranking was based on:

-review of each proposal and answers to our follow-on questions

-services that would be provided in the proposal

-how familiar the company is with Dewey Beach and our 5G challenges

-cost for the service
