

**Climate Change and Sea Level Rise Committee**

Focus: Develop recommendations to the Town Council for a responsible strategy for resilience to climate change and rising sea levels to protect the Town in the face of rising sea levels.

Objectives:

- Promote public understanding of flood zone designations and associated flood risks
- Assess and recommend tools available to characterize current and future flood risks
- Propose Town coastal adaption goals (protection, accommodation, retreat, or preservation and how these goals may apply differentially to sections of the Town
- Consider possible changes to zoning and building regulations that may enhance resilience to the effects of climate change and sea level rise
- Identify sources for possible grant funding and technical assistance for implementing resilience and sustainability strategies.
