**Subject:** RE: Willard Square, Cape Elizabeth

Hi Danica,

According to the attached letter, Mr. Friedland is proposing to place the fence posts in the same location that was previously sampled for VOCs and will not be generating or removing any excess soil, therefore, no further sampling is necessary. Should any excess soil be generated, please contact me to discuss sampling and proper disposal. This proposed project is in compliance with the Environmental Management Plan.

Please let me know if you need anything further.

Thanks you,

Becky
