Hi Maureen,
Its Lulu I wrote this on a doc and I am just forwarding it to you. I provided links to the websites I used if you wanted to take a look.

Pickle Pond Project By Lulu Stoecklein

Aquatic plants native to Maine

- Fragrant water lilies
- Common Cattails
- Pipewort
- I am keeping in touch with Morgan Kerr about getting the plants.

Fish stocking

<https://www.maine.gov/ifw/fish-wildlife/hatcheries/index.html> Maine Inland Fisheries and Wildlife. This is where I could get in touch for stocking. <https://www.katahdincedarloghomes.com/blog/tips-for-prepping-and-stocking-a-fish-pond/#:~:text=Each%20state%20has%20its%20own,annual%20stocking%20permit%20is%20%245>. In Maine it costs 10 dollars to get a 5-year permit for stocking.

<https://www.maine.gov/ifw/docs/PRIVATE%20POND%20STOCKING%20APP.pdf> I found an application for stocking.
