to me, Matthew

Dear Jay,

I am sorry we haven't been able to reach each other by phone. Because I am off tomorrow through Monday I am sending you this email.

If you recall at the February 8 town council meeting Chrissy Adamowicz, Natural Resources Council of Maine presented the Extended Producer Responsibility (EPR) initiative. The presentation was recommended by the Recycling Committee from the presentation to the committee on 11/5/2020.

At the presentation the town council was asked to consider signing a resolution that has also been endorsed by other communities, see attached. The council agreed to further discuss the resolution at last evening's workshop. The council will consider the resolution at the March 8 meeting.

At the workshop, the council asked whether there is time for comments by the recycling committee before March 8. According to the calendar the next meeting of the committee is March 4. Will you please add this item to the agenda?

The 11/5/2020 committee minutes were provided to the town council. The bill is still in the Office of the Revisor so without seeing the details of the bill, it is unknown if the committee will have further comments at this time. If there are comments, the council would like to hear them. The committee's time in reviewing this item is appreciated.

If you will please let me know what happens the day after the committee meeting. The agenda will have already been distributed however I will forward a memo to the council on Friday (March 5) so they will have it before the March 8 meeting.

In my absence, Matthew is available to answer any questions.

Thank you very much.

Debbie
