

# CEMS Contact Tracing Models

Hybrid vs 100% In-Person

= Positive Case

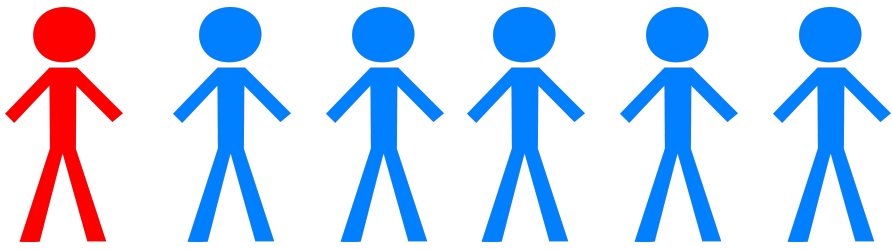

= New Exposures/Close Contacts

= Previously Identified as a Close Contact to this case

# Hybrid

8th Grade Student

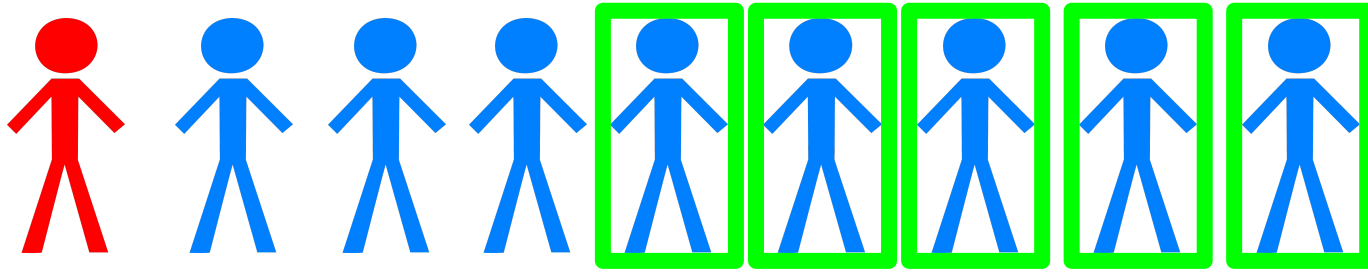

1st Period- Math

6 students

1 positive case

**5** new exposures/close contacts

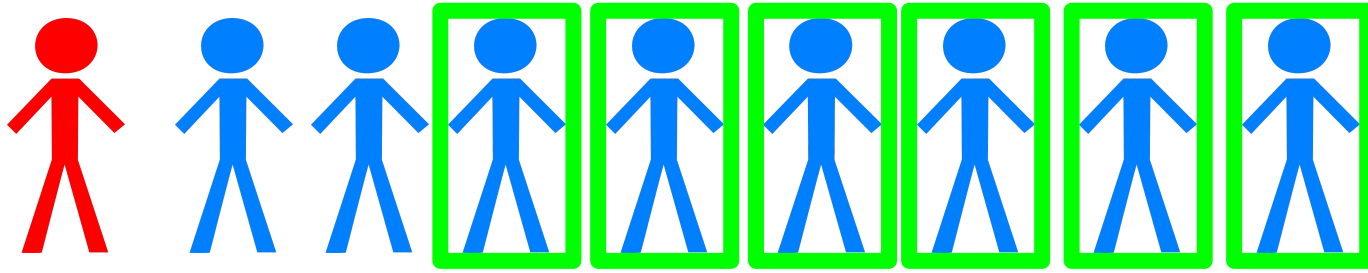

2nd Period- LA

9 students

1 positive case

**3** new exposures/close contacts

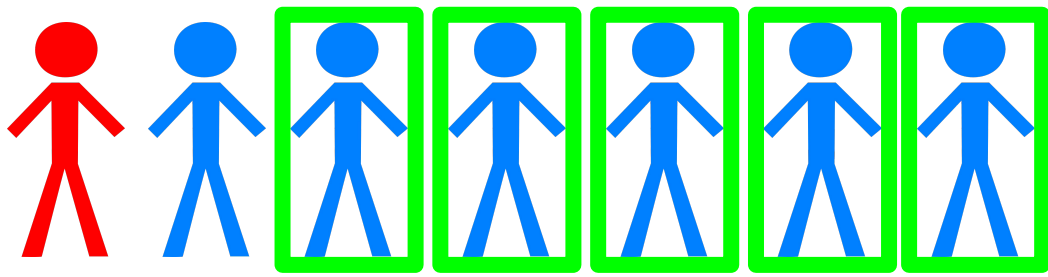

3rd Period- Gym

9 students

1 positive case

**2** new exposures/close contacts

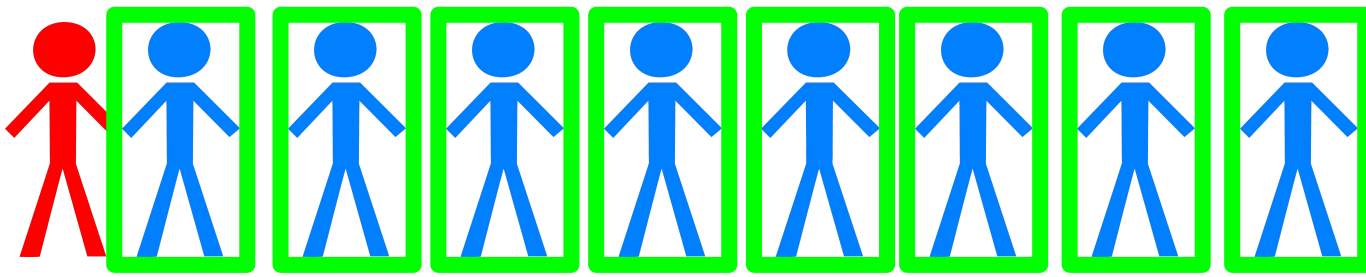

4th Period- World Language

7 students

1 positive case

**1** new exposures/close contacts

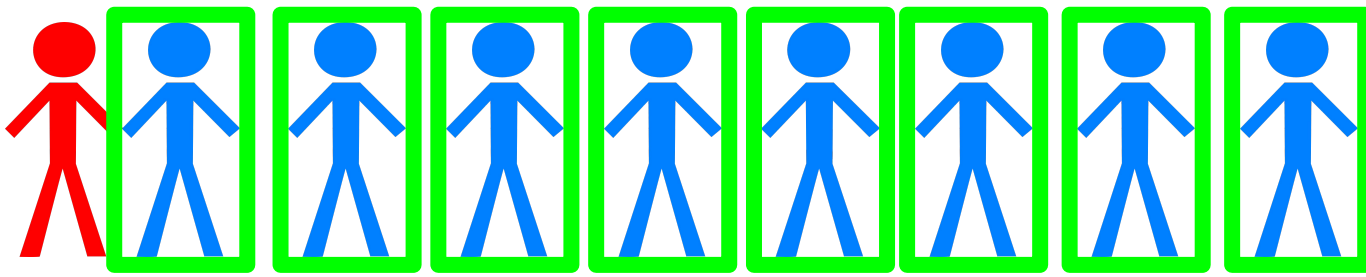

5th Period- Science

9 students

1 positive case

**0** new exposures/close contacts

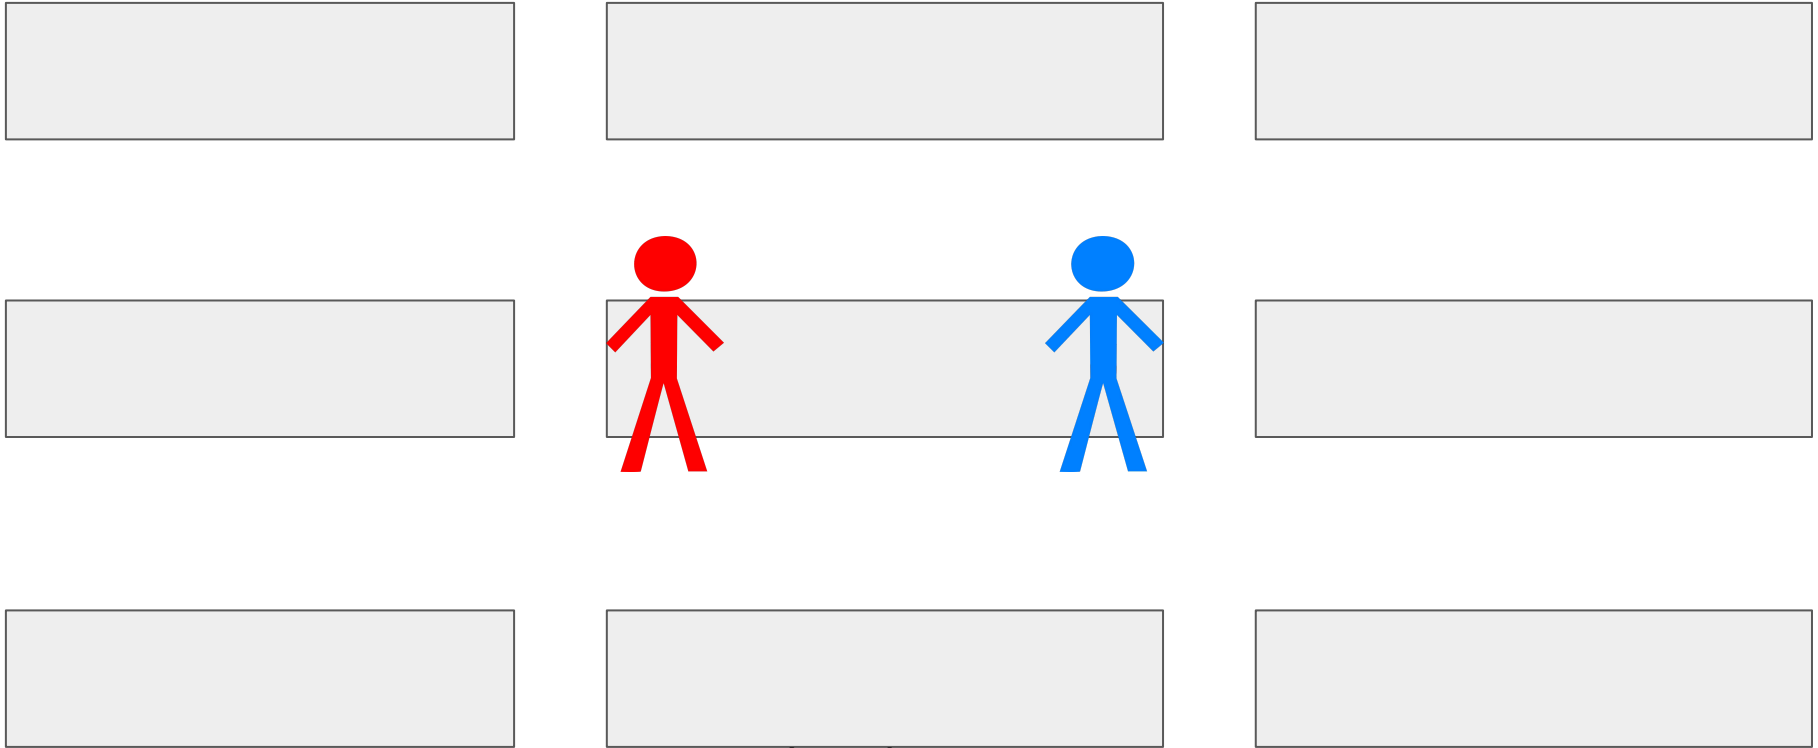

6th Period- Social Studies

9 students

1 positive case

**0** new exposures/close contacts

Lunch

**Tables are 9+ feet apart**, students are 6 feet from their tablemate.  
Per CDC guidance, the lunchroom is traced with a 8 foot radius.

**1** new contact/exposure

# Hybrid

## Allied Arts on remote days, 6 class periods

Total Exposures

### **1 Positive Case**

8th Grade

### **12 close contacts- students**

Staff was not accounted for as they will not be considered close contacts if fully vaccinated (14 days after last dose of COVID-19 vaccine).

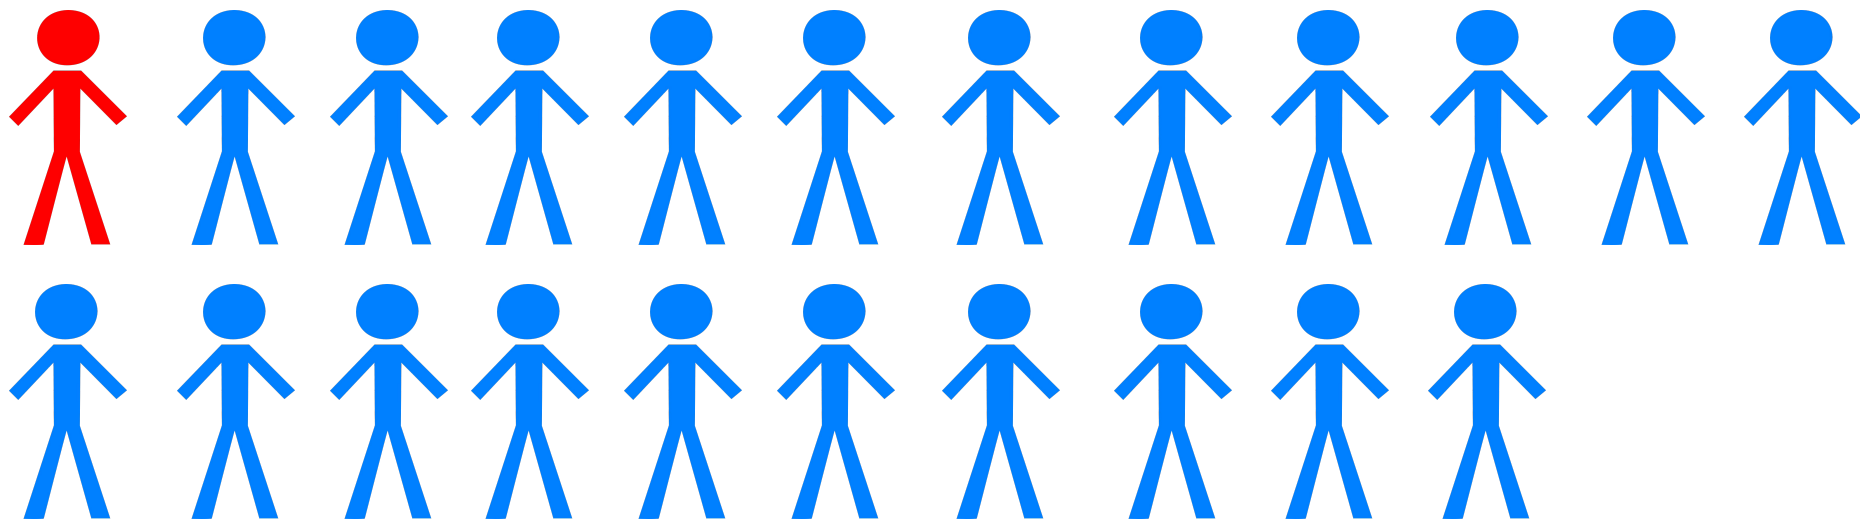

This does not include bus, extracurricular, or athletics exposures.

Close contacts must quarantine for 10 days or more if symptomatic or should they test positive

No athletics, activities, day care, work, etc.

# 100% In-Person

8th Grade Student

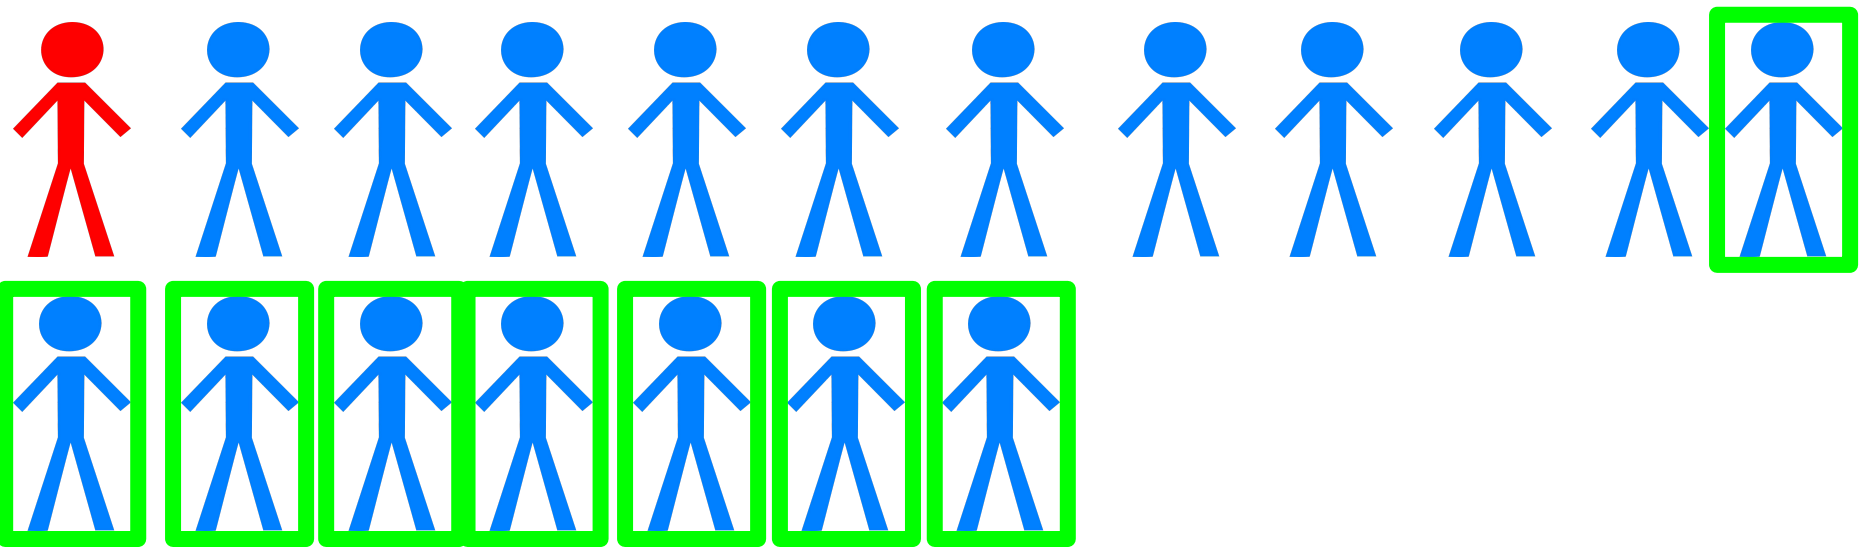

1st Period- Math

22 students

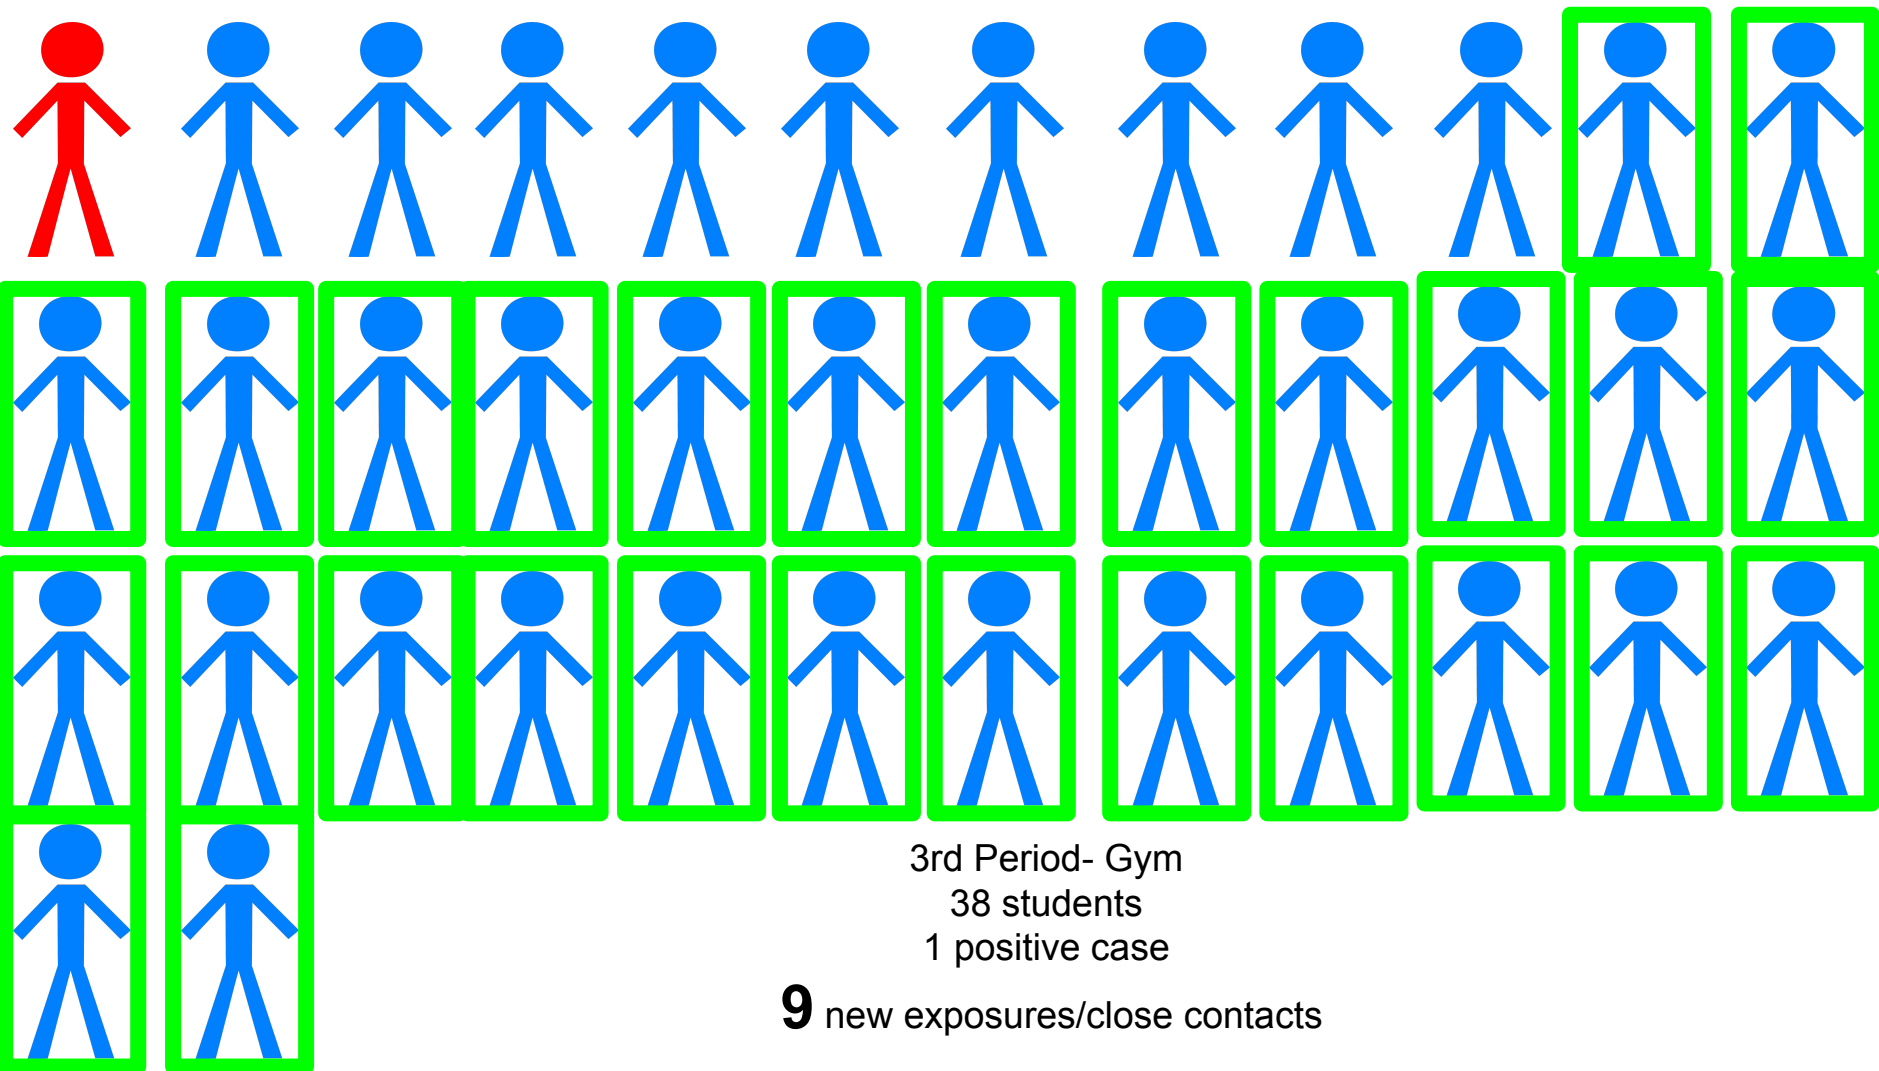

1 positive case

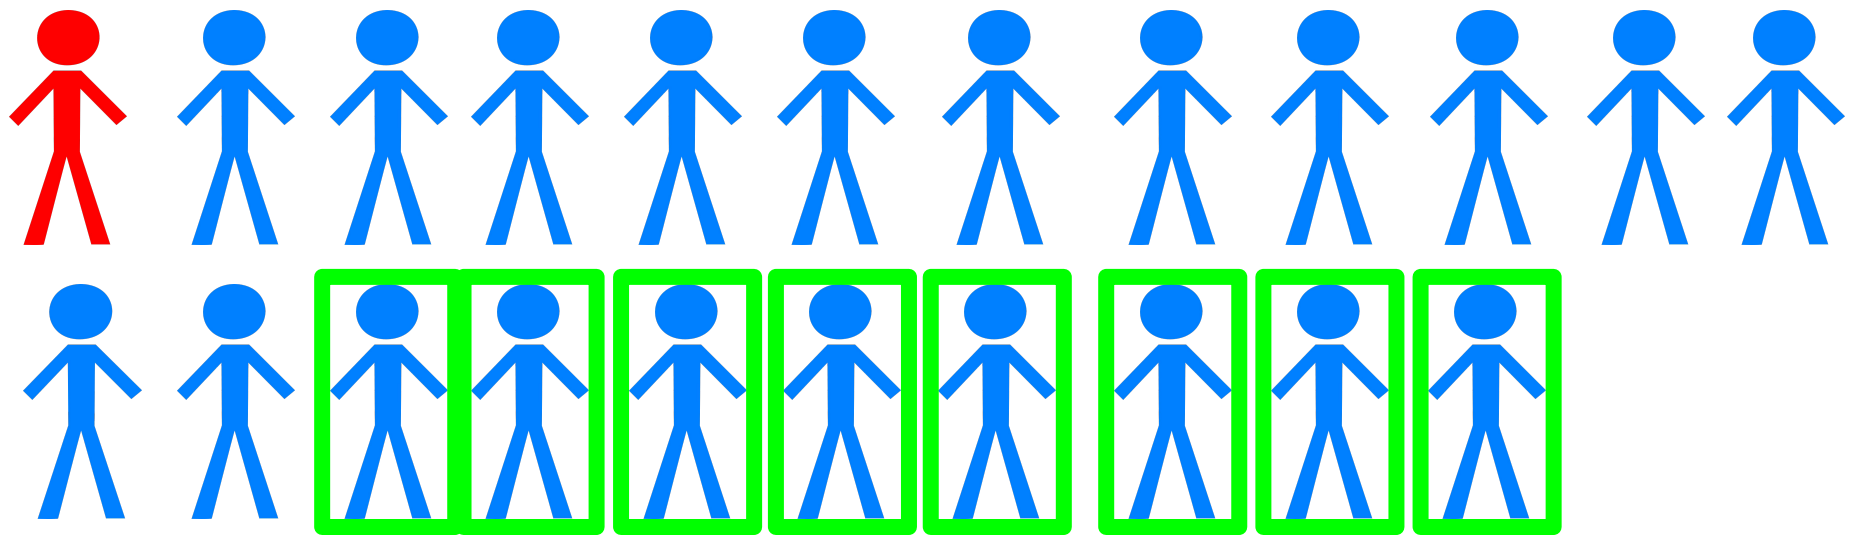

**21** new exposures/close contacts

2nd Period- LA  
19 students  
1 positive case

**10** new exposures/close contacts

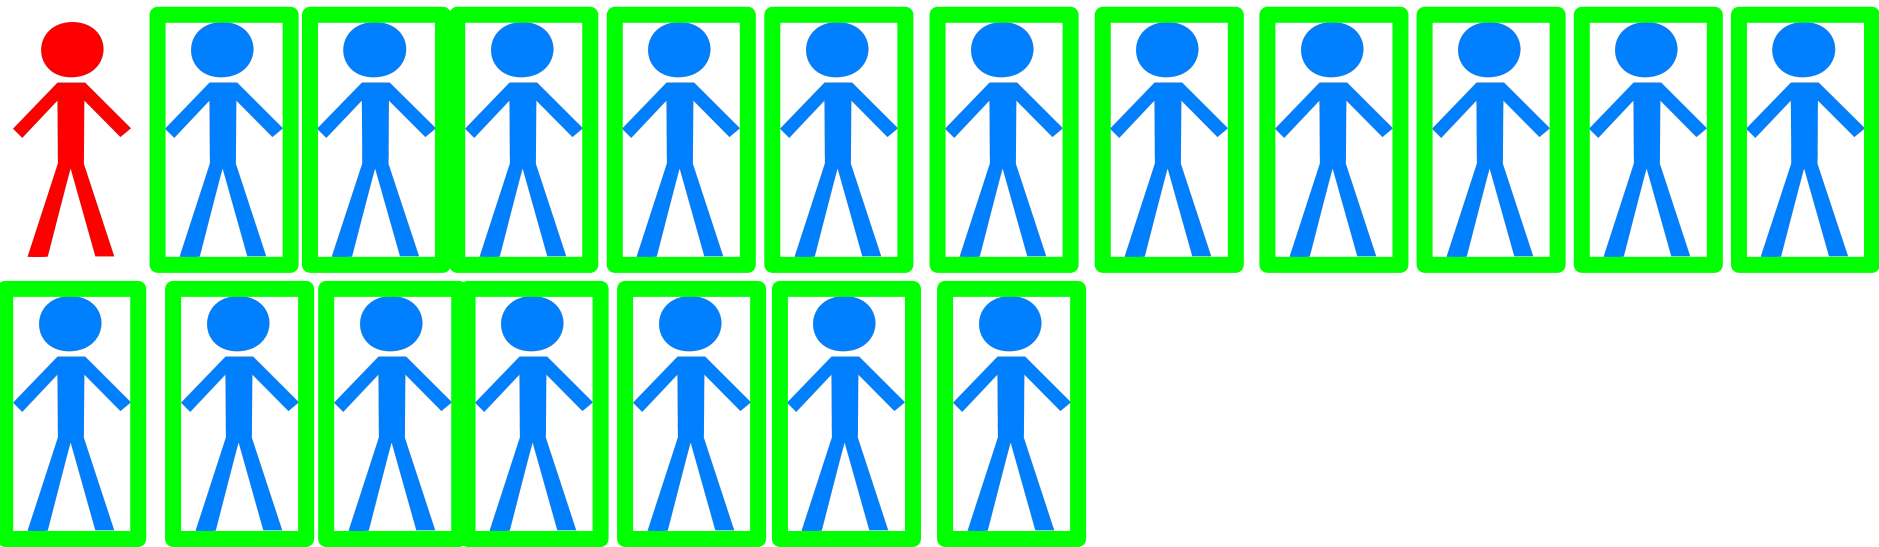

4th Period- World Language

22 students

1 positive case

**14** new exposures/close contacts

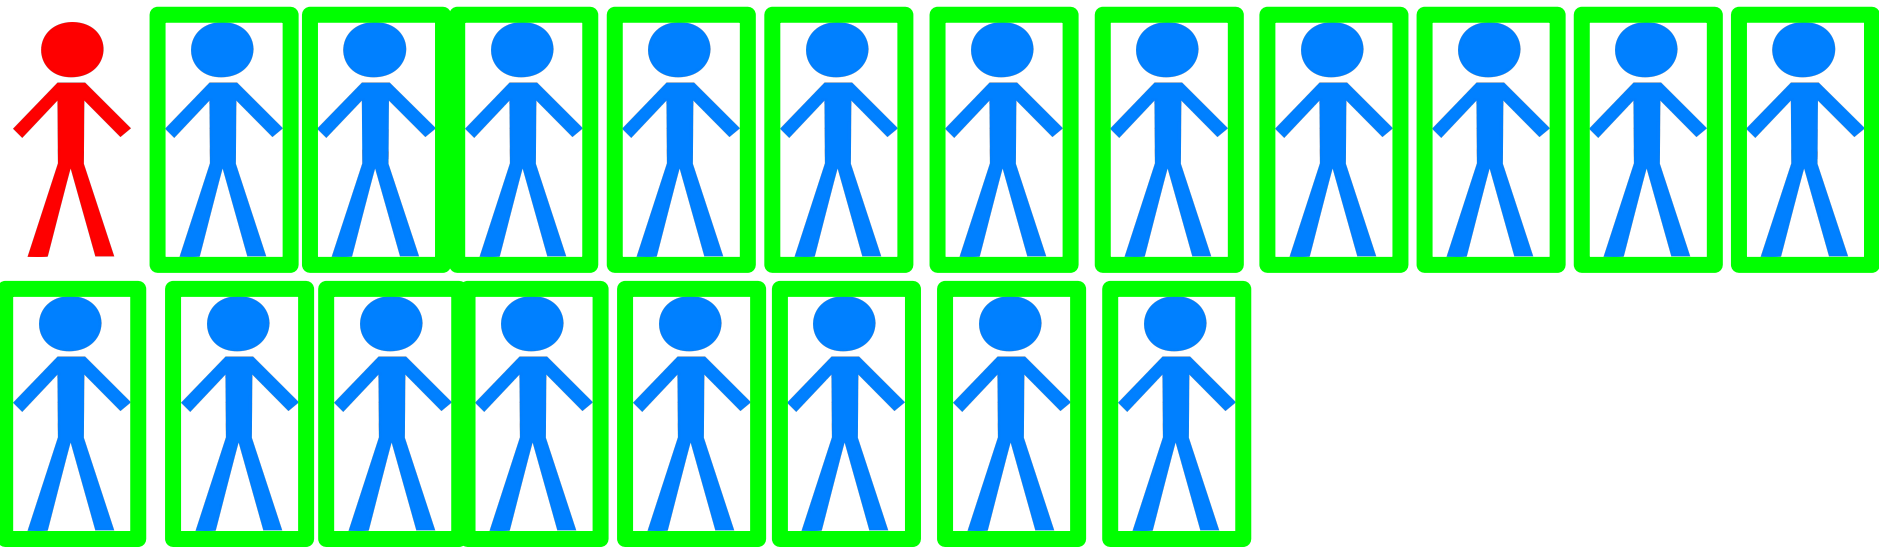

5th Period- Science

19 students

1 positive case

**0** new exposures/close contacts

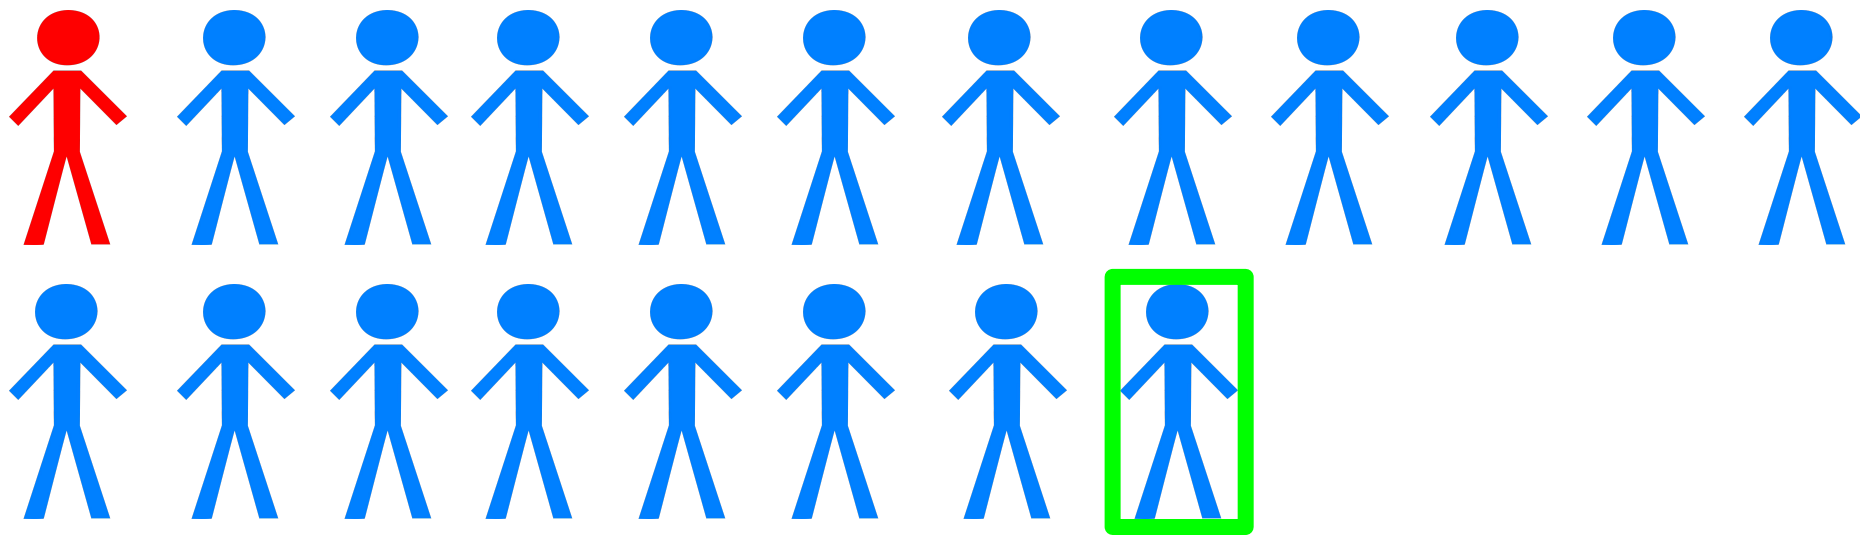

6th Period- Social Studies

20 students

1 positive case

**0** new exposures/close contacts

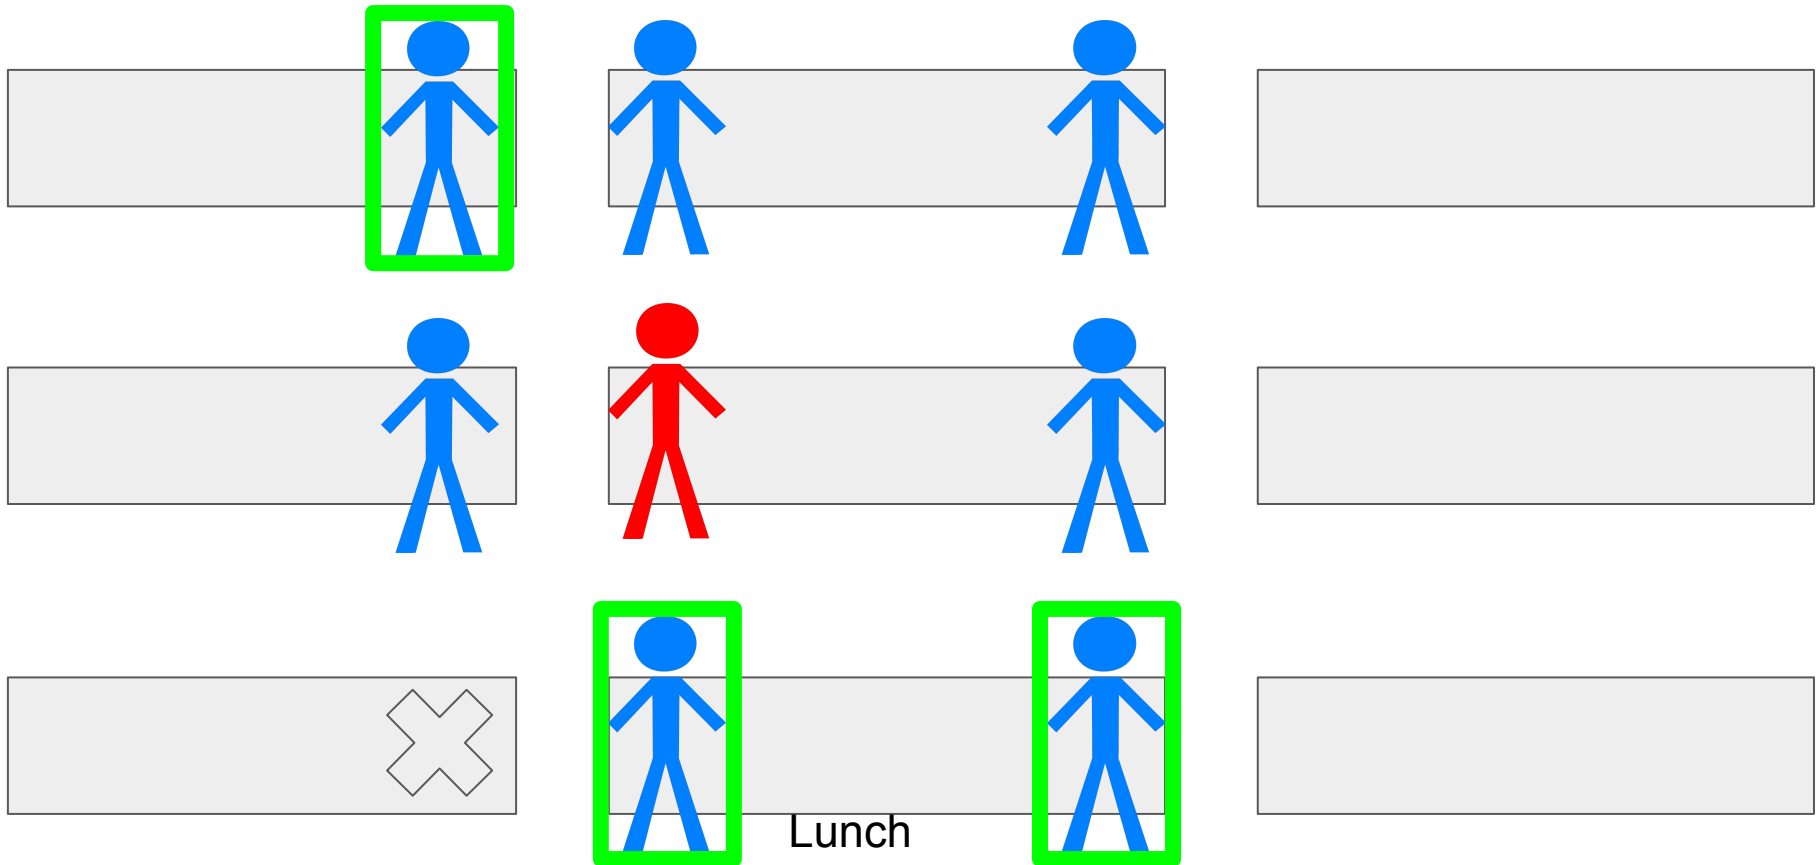

7th Period- Chorus 7/8

20 students

1 positive case

**18** new exposures/close contacts

**Tables are 6 feet apart**, students are 6 feet from their tablemate.  
 Per CDC guidance, the lunchroom is traced with a 8 foot radius.

**4** new contacts/exposures

# 100% In-Person Allied Arts, 7 class periods

Total Exposures

**1 Positive Case**

8th Grade

**76 close contacts-** students

Staff was not accounted for as they will not be considered close contacts if fully vaccinated (14 days after last dose of COVID-19 vaccine).

This does not include bus, extracurricular, or athletics exposures.

Close contacts must quarantine for 10 days or more if symptomatic or should they test positive
