Minutes

- A motion was made for the approval of the May meeting minutes by Richard Parker and was seconded by John Voltz. All were in favor of the approval of the draft.
- Introductions were made from the committee members to David Bagdasarian as the new Town Liaison for the group.
- Sam Milton shared about his meeting with the Town's Planning Board. John Voltz was interested in getting some clarification on the rules and what can and can not be done. Sam Milton was going to follow up with Maureen for clarification.

- Sam Lipman brought to the group some new information on a bill (LD936) where some solar projects over 2 Mega Watts that were not in the system last year could be getting cut from the state's list

leaving them unable to be completed. Carrie Gilbert did note that Cape Elizabeth's project is smaller than the 2 MW and on a landfill and therefore should not affect the progress of the town's project.

- John Voltz thought the committee should develop a list of things we could be working on, and then hold a meeting with community members for input before meeting with the Town Council. David was going to check with the Town Manager to see if this was okay to proceed with, and Richard was going to start organizing the list.

Public Comment

- No public present.

Adjournment

After hearing no further comments, John Voltz made a motion to adjourn

and was seconded by Sam Milton. The meeting was adjourned without objection at 7:40 p.m.

Next Meeting
