

GRADUATION REQUIREMENTS

~~Before entering high school, students need to know the standards for attaining a Cape Elizabeth diploma in order to plan an appropriate and sequential educational program to meet that goal.~~

~~The Cape Elizabeth School Department (CESD) is in the process of implementing proficiency-based education and transitioning, over a period of five year, from traditional graduation requirements to proficiency-based diploma requirements. When fully implemented, these new diploma requirements will require students to demonstrate proficiency in the content areas and Guiding Principles of the Maine Learning Results and to fulfill all additional graduation requirements set by the Board.~~

~~Students graduating in the Classes of 2018-2020 must meet the credit and other graduation requirements specified in Part I of this policy. A student who would have graduated with the Class of 2020 and been awarded a diploma at commencement but for his/her failure to earn sufficient credit or meet other requirements set by Board policy will have until December 31, 2020 to fulfill the graduation requirements applicable to the Class of 2020.~~

~~The transition to proficiency-based diploma requirements will begin with the Class of 2021 and be completed with the Class of 2025.~~

~~The Superintendent, through the high school principal or other designee, shall be responsible for making accurate information concerning diploma requirements available to incoming students and their parents/guardians prior to the start of their ninth grade school year. These requirements shall also be included in the high school student handbook.~~

~~The Board has approved the following minimum requirements for graduation, which include the requirements specified by the State of Maine. The Board is aware that current law and regulations are subject to change, and expects the Superintendent/designee to inform students and parents as soon as practicable of any additional State-imposed standards that must be met before students may be awarded a high school diploma.~~

The graduation requirements of the Cape Elizabeth School Department (CESD) are designed to ensure that students demonstrate proficiency to the content standards and Guiding Principles of the Maine Learning Results prior to earning a diploma.

Students demonstrate proficiency by earning credit for courses and other approved learning experiences whose curricula are aligned to the content standards and Guiding Principles of the Maine Learning Results.
