RE: Depth of Cover Survey

Dear Landowner,

You are receiving this letter because Phillips 66 Pipeline LLC (P66) operates a pipeline system that crosses through or near your property. Beginning in the near future, as part of its continuing integrity program, P66 will be conducting a depth of cover survey, on it's pipeline(s) located on the above referenced property.

To complete the surveys, P66 or its contractor will locate the pipelines and walk the entire length of the pipeline right of way, taking readings as they go and occasionally probing for pipe depth; no digging will occur. This letter serves as notice of P66's upcoming project and its contractor's intent to enter your property to perform the above mentioned surveys. If you have any tenants or hunters on the property, P66 asks that you please advise them of this project.

I can be contacted by phone at (432) 894-7721 or at Taylor.McGee@P66.com, if you have any questions. I apologize for any inconvenience caused by our work, however, please know that this work is important, as it is part of our ongoing efforts to maintain a safe and reliable pipeline system, but will be minimally invasive and is not cause for concern.

P66 appreciates your cooperation in this matter.

Respectfully,

A handwritten signature in cursive script that reads "Taylor McGee".

Taylor McGee
