

**Local Infectious Disease Response Update**

- Case management efforts for isolated tuberculosis cases identified in February 2025 are ongoing.
- Other cases of infectious disease are investigated as discovered.

**Public Health Protective Actions:**

- All the current recommended infection control protocols remain in place as provided by the PHO/HD.
- The PHO & Epi continue active measles surveillance.
- Messaging is heavily focused on back-to-school immunizations and health assessments.
- Preparation for respiratory season is underway.
- The HD engages the public in multiple methods – check out the HD podcast. Search “For the Health of It – Cowley County” wherever you listen to your podcasts.

Respectfully Submitted  
Thomas Langer – Public Health Officer

A handwritten signature in blue ink, appearing to read "Thomas Langer", is positioned below the typed name.
