

We hereby request that you kindly give priority to this application. Our Dear mother /grandmother Blima Kahana who is a holocaust survivor, lives with us and is enjoying the freedom that G-d, and the US government has granted Her.

Her family of children, grandchildren, and great grandchildren which exceeds 300 members love to come visit and bring joy to her life.

It is understandable that with the extension we are requesting it will give her and the family a lot of peace and enjoyment.

We thankfully hope and pray that permission will be granted ASAP so that the family could appreciate and enjoy with our dear mother/grandmother in a happy, safe and peaceful environment.

With blessings for a healthy summer.

*Kahana Family*
